

Efforts That Honor Them

Hallmark Rehabilitation's training covers all aspects of:

- *Billing and coding*
- *Denials prevention*
- *Appeals management*
- *Rehabilitation documentation*
- *Policies and procedures*
- *Outcome driven programs for the sub-acute, long-term care, and outpatient populations*
- *Compliance with HIPAA*
- *State and federal surveys*

Like any treasures of inestimable value, our elders deserve the care of teams of qualified, trained personnel. To enhance collaborations between teams, stand-up meetings, case management, and quality indicator reviews are conducted, ensuring the best possible care is provided in an innovative, ever improving way. Providing elderly residents with stroke and orthopedic rehabilitation restores qualities that were once thought lost, like taking the tarnish off silver. Hallmark Rehabilitation's training and support makes this long-term Care Training the most effective it can be.
