

Supporting With Knowledge

Hallmark Rehabilitation partners with its facilities by defining each facility's center of excellence, providing ongoing education and seminars, supporting census development, producing rehabilitation facility brochures, and engaging community awareness/support. Helping restore our treasures to their best possible state are care management systems within the PPS environment, ensuring each resident's care is monitored from pre-admission through discharge and post-discharge follow-up. A Medicare Analysis is completed to identify opportunities for enhancing clinical and fiscal outcomes within a PPS environment. Hallmark partners with the facility to review:

- Key factor RUGs data
- Rehab RUG distribution
- ADL index
- Medicare A length of stay
- Percentage of rehab days vs. nursing days
- Quality indicators
